CONSTITUTION.

ARTICLE 1. The objects of this association are to furnish the advantages of a thorough education at the least possible expense; to break down, so far as our influence shall extend, the oppressive distinctions on account of caste and color, and counteract, both by example and precept, a spirit of aristocracy, that is spreading itself throughout the land, and which it is feared, the influence of many of our institutions of learning has a great tendency to encourage.

ART. 2. We will endeavor to maintain a school under the name of the "*Albany Manual Labor University*," in which a pure morality and evangelical religion shall be taught, guarding against the introduction of both sectarian teaching and sectarian influence.

ART. 3. As the name of our charter implies, labor shall be combined with study invariably, in such a manner as the Trustees may direct, so that no less than two hours of manual labor each day, shall be required of every teacher and student, unless prevented by sickness, or other bodily infirmity.

ART. 4. No person of good moral character, who is not a slaveholder either in practice or principle, shall be denied the privilege of being a shareholder in the Institution; none shall be rendered ineligible to office, or refused admittance as a student, on terms of perfect equality on account of *caste, color* or sex.

ART. 5. The capital necessary to establish the Institution upon a proper basis, may be raised by selling shares at \$25 each, by selling perpetual scholarships, and by voluntary donations,

ART. 6. The actual ownership of the Institution is vested in the shareholders, who shall be entitled to one vote for every share held by each, in the election of Trustees and other officers, and in the transaction of all business at the annual meetings.

ART. 7. Share certificates shall be issued by *order of the Board*, with the signature of such officer or agent as the Board shall design-

nate, and by no other person. These certificates to be negotiable by indorsement.

ART. 8. Absent shareholders shall be entitled to have their votes thrown by any other shareholder, on giving letters of agency to be deposited with the Secretary before voting. Provided, not more than ten proxies be held by one shareholder.

ART. 9. The officers of this Institution shall be a President, four Vice Presidents, Clerk or Secretary, Treasurer, General Agent, and twenty other persons, who shall jointly constitute a Board of Trustees to hold their offices for three years, and until their successors are chosen; they shall have power to fill their own vacancies, sit on their own adjournments, receive and disburse moneys, make contracts, and enforce them, audit accounts, appoint visitors and examiners of the school, and transact all other business for promoting the interest of the Institution.

ART. 10. The Trustees shall be chosen by ballot, one-third at each annual meeting, to be held on the last Thursday of September in each year, at which time this Constitution may be amended, if two-thirds of the votes thrown shall be in favor of it, provided that due notice specifying the contemplated change be given in one or more papers of general circulation among the Stockholders of the Institution before the annual meeting when the proposed change is to be presented — *except* so much of the second, third, and fourth articles as embrace the distinctive principles of our organization, to wit: Pure morality and religion, without sectarianism; manual labor, and freedom from distinction on account of caste, color or sex — these features shall remain unalterable.

ART. 11. The Shareholders, at the time for voting, shall designate upon their ticket six persons to be constituted an Executive Board, whose duty it shall be to transact all the business of the Institution in the absence of the other Trustees, and the acts of this Board shall have the binding force that they would have, if all the Trustees were present; but neither the Executive Board, nor the full Board of Trustees, shall have power to involve any Shareholder in liabilities beyond the amount contracted to be paid by each.

ART. 12. It shall be the duty of the Executive Board to cause a fair record of their proceedings to be kept, and to exhibit the same

to the annual meeting, with a full report of the condition of the school, the number of students, the amount of labor performed by each, the different branches taught, and a statement of the finances.

ART. 13. The holders of scholarships are entitled to one vote for each scholarship.

ORNAMENTAL BRANCHES.

Arrangements have been made with Mrs. Cable and her daughters, by which private lessons will be given in the usual ornamental branches of education, for which an extra charge will be made.

Music upon the Piano or Melodion, per term,	\$8 00
Use of the instrument,.....	2 00
Drawing and Painting,.....	5 00
Needle work,.....	3 00

An opportunity will likewise be afforded for young ladies to pursue a thorough Medical course under the instruction of Dr. Wm. N. Hudson, long and favorably known as an Allopathic Physician, but now of the Hydropathic school.

Tuition must be paid in advance, and no deduction for the full term will be made, unless in case of protracted sickness.

BOARDING.

Young ladies from a distance will board at the Hall or in such private families as shall be approved by the Ex. Board. And when boarding at private families, will be under such wholesome rules as may be adopted by the faculty for the regulation of the school. There will be a matron in the Boarding Hall, and special pains will be taken in the instruction of the young ladies in respect to their morals, manners and general deportment. Ladies will be received in the Boarding Hall at the age of sixteen, those younger must find boarding in private families.

The price of boarding per week will be—\$1 00, and two hours labor per day.

Room rent per Term—\$2 50.

If two young ladies will give \$50, for furnishing a room, the rent to them shall be free as long as they continue members of the school. Should they remain three or four years it will considerably lessen their expenses. We hope benevolent ladies through the country will thus furnish rooms and aid the poor in acquiring an education.

Young gentlemen can rent rooms in town and take their meals at the Hall if they desire, by paying \$1 50 a week for their board. Board must be paid monthly in advance.

The rooms in the Hall are furnished with stove, bedstead, table and chairs. Young ladies must furnish their own beds, bedding and towels.

Board can be obtained in private families at from \$1 75 to \$2 per week.

Wood is \$1 25 per cord, or can be had by chopping and hauling.

Washing is 50 cents per dozen.

All letters sent to this place should be directed, Lee P. O., Albany, Athens Co., Ohio.

Persons coming here by the Ohio River should land at Pomeroy, from thence there is a daily line of stages; distance, 20 miles. The Cincinnati & Marietta R. R. is completed to Athens; from thence a daily stage; distance, 10 miles.

The purpose of the board is to make thorough practical scholars. Although a President and full corps of Professors have not yet been obtained, still as many competent teachers, who are in harmony with the spirit of the age, have been procured as the present condition of the school demands.

While the classics will be thoroughly taught, special pains will be taken to give a thorough mathematical and scientific course. Instructions will be given in practical surveying and civil engineering with field lectures. Every effort will also be made to qualify young ladies and gentlemen for the honorable and important profession of teachers.

A Teachers' Association in connection with the school is in successful operation.

THE OBJECTS AND PLANS OF THE INSTITUTION.

The objects and aims of the Trustees and friends of this Institution, are set forth in the Constitution of the Association. It has been and will continue to be the constant aim of the Trustees and Teachers, to maintain and carry out these principles.

Such being our objects and aims, in view of our geographical position, near the border of two Slave States, and in view of the political and moral condition of our country, we earnestly and confidently appeal to the friends of freedom and humanity to aid us in this noble enterprise.

MANUAL LABOR.

The result of this department has been quite satisfactory. The Institution is pledged to furnish students, whose parents do not reside in town, two hours labor per day. Many, by daily labor, have been able to pay their board. Others have not been able to do this, while others still have paid their board, washing and room rent.

LETTERS OF COMMENDATION.

The late SAMUEL LEWIS was one of the Trustees of this Institution. Before his death he wrote the following note :

CINCINNATI, July 23rd, 1853.

Rev. JONATHAN CABLE has been elected one of the Faculty of a University proposed to be established and endowed in place of what has been the Albany Manual Labor Academy.

This Academy has been eminently useful as a liberal Institution of Learning, where students without regard to color or sex, have been admitted. The increased and growing demands for higher Institutions of Learning, required that this should be made equal to any other in the State, and an effort is now making to provide ample endowment for such purpose.

Southern Ohio needs such an Institution. Those who have undertaken this enterprise may be relied on ; they are tried men and deserve the entire confidence of the friends of freedom and humanity. Brother CABLE is in the field to make collections ; and I most cheerfully commend him and his cause to the sympathy and liberality of all who love the Lord, and love to aid in the spread of Christian education over our land.

SAMUEL LEWIS.

We would unite in the above commendation of the Albany Manual Labor University, and the faithfulness of its Agents—Rev. J. Cable and Dr J. A. Bingham—and would commend them and their worthy cause to the Christian public.

ROBERT STEWART,
JAMES STEEL,
JOHN STEEL.

WASHINGTON, December 21, 1853.

REV. CABLE :

MY DEAR SIR—I have no doubt of the value and utility of such an Institution as it is proposed to make the Albany Manual Labor University. I wish it heartily, abundant success.

S. P. CHASE.

WASHINGTON, HALL OF REPRESENTATIVES, December 14, 1853.

From the information which I possess in relation to the Manual Labor School at Albany, in Athens county, Ohio, and the men engaged in its formation, I have no hesitation in commending it as worthy of the attention of all friends of humanity.

Very Respectfully,

J. R. GIDDINGS.

CINCINNATI, April 11, 1854.

From my knowledge of the character of those engaged in the establishment of the Albany Manual Labor University, of the Institution itself, and of the wants of Southern Ohio, I have no hesitation in recommending it to the Christian public as an enterprise worthy of confidence and support, and which, if successful, will confer great benefits upon an extensive region of country.

I am personally acquainted with its Financial Agents—Rev. J. Cable and Dr. J. A. Bingham—and know them to be efficient Agents and altogether worthy of confidence.

CHARLES B. BOYNTON.

We concur in the above,

J. JOLLIFFE,
JOHN RANKIN,
LEVI COFFIN.

OBERLIN, O., June 20th, 1854.

We have heard the statements of Rev. J. Cable and of Dr. J. A. Bingham, Agents of "Albany Manual Labor University," and have no doubt that a school such as they desire to build up, would be a great blessing to the youth in that portion of Ohio, and that its success would contribute greatly to the advancement of Christian reform in that region generally.

We wish them abundant success.
